Mixed Teaching

MetFilm School's *Young Filmmaker's Academy* is a practical course which is taught largely in person. We have also found that we can enhance our in-person teaching using online tools, and the School has developed a *Mixed Teaching* approach which allows us to do just that. For example, some 1:1 tutorials and large group experiences are better delivered digitally. All online sessions will be noted clearly in student's timetables. In addition, where public health considerations or other matters outside our control limit access to the campus, *Mixed Teaching* ensures that students can continue their learning journey. The introduction of online tools will allow us to offer more opportunities, more content and an enhanced learning experience, at the same time delivering the in-person practical experience our students value.

The information included in this pack is provided to enhance your understanding of the course. Please note that some details may vary depending on the cohort.
