Teaching and Learning

The delivery of MetFilm School programmes is tailored to the particular learning goals of the individual course. Many courses contain production periods when the demands on individual students vary according to their individual shoots. Specific details vary from time to time in order to maximise student experience. Indicative calendars are issued at the start of each course.

Delivery of this course will be within these parameters:

Teaching

- We have also found that some experiences (such as tutorials) are better delivered digitally. Any online sessions will be noted clearly in students' timetables. In addition, where public health considerations or other matters outside our control limit access to the campus, this *mixed teaching* approach will ensure that students can continue their learning journey.
- Throughout this course students will be given formative feedback from their tutor and through peer review. However, this course is not formally assessed academically, and no grades are given at the end of the course.

Production

- Every student will be given an opportunity to pitch their ideas for the final filmed production but only one idea will be chosen for the final production.

- The final production will be a 2-day shoot.

The information included in this pack is provided to enhance your understanding of the course. Please note that some details may vary depending on the cohort.
